Chen Shaoulian

Senior Product Designer

chenkushnir@gmail.com

Product designer with 9 years of experience designing B2B products, complex systems and AI-powered experiences. I own the work end to end, from research and discovery to polished UI in production, and I design hands-on in code alongside developers. I love challenging how teams work, spotting opportunities others miss, and turning complex problems into simple, obvious experiences.

Experience

2024 - Present

UX/UI Designer

ZoomInfo · Growth group

- Designed end-to-end experiences for ZoomInfo's B2B product, as part of a design team across Israel and the US.
- Identified product opportunities, pitched them to leadership and led initiatives from research and discovery through launch.
- Designed AI-powered experiences and built them hands-on in code with developers, using Claude Code and Cursor.
- Introduced a design-in-code workflow for designers, developers and PMs that the team adopted as a working practice.
- Built internal AI tools and Figma plugins that helped designers and PMs move faster and stay aligned with the design system.
- Onboarded and mentored new designers, and presented design direction to company leadership.

2019 - 2024

UX/UI Designer

Framez

- Designed systems, applications and digital products end to end for clients across industries.
- Defined product requirements, UX flows and information architecture, and turned them into polished UI.
- Worked closely with developers through implementation, from handoff to launch.

2017 - 2019

UX/UI Designer

Outline UX/UI

- Designed interfaces and design systems for web and mobile applications.
- Ran user research and turned it into personas, user flows and wireframes.
- Worked closely with development teams from handoff through implementation.

2017 - 2018

Teaching Assistant, UX/UI course

The College of Management

- Prepared course materials and assignments, led class discussions and gave feedback on student projects.

Military Service

IDF

Intelligence Corps & Ground Forces Technology Division

- **Product Designer, reserve service.** Designing cyber and defense technology products in a reserve R&D unit.
- **Information Security NCO, regular service (2009 - 2011).** Designed and implemented an information security system for the unit.

Education

2013 - 2017

B.Des, Visual Communication & Interior Design

The College of Management

Skills & Tools

Product design	End-to-end ownership, user research, usability testing, UX flows, interaction design, design systems, prototyping
AI & code	Claude, Claude Code, Cursor, OpenAI Codex, ChatGPT, Gemini, Figma Make, Lovable, Base44, GitHub (commits, branches, pull requests), Figma plugin development
Design	Figma, Framer AI, Photoshop, Illustrator, After Effects, Midjourney
Research	Perplexity, NotebookLM
Languages	Hebrew (native), English (fluent)
